What Sets Epicurean Group Apart?

Epicurean Group follows environmentally and socially responsible management practices. Everything is made from scratch, not from cans that are delivered from a warehouse. Epicurean Group's artisan approach supports local organic farms and ranches and follows the sustainable seafood model of the Monterey Bay Aquarium.

Through our company wide solid-waste reduction and Garden-to-Table initiatives, Epicurean Group is educating clients, students, families, and business communities about how food choices affect health, the environment, and the community. As a matter of fact, we were recently awarded the California Governor's Environmental and Economic Leadership Award (GEELA) for conserving resources and protecting the environment with our Waste Not Program. We are very proud of our achievements. Some companies just talk about helping the environment, but we do it!
